

## Jamal Abdul Nasser Road Development Project Opens New Detour in Residential Shuweikh

**Kuwait, 30 September 2012**

Engineer Abdul-Aziz Al-Subah, Head of Highway department representing the Ministry of public works in Kuwait, today announced the latest updates on road and utility works of the Jamal Abdul Nasser road Development project by opening a traffic detour on located in the area between residential Shuweikh and Al-Salam Palace on 2<sup>nd</sup> October 2012.

Engineer Abdul-Aziz stated that upon coordinating with the Road Engineering Dept representing the Traffic Authority which in turn conducted a site inspection verifying all safety measures at hand and approving permits to open the traffic detour on the road.

“Opening this detour is necessary to complete rainwater drain works in the area as well as transferring other utilities as proposed that lies beneath this part of the road”.

In a message from Engineer Abdul-Aziz Al-Subah to Jamal Abdul-Nasser Road users said:” We would like to extend our apologies for any inconvenience this detour may cause, We call on all t drivers to abide by all traffic guidelines and use caution while driving within the construction area. Drivers must adhere to speed limits clearly designated throughout the detours for their safety and for the safety of others and those workers working on the project”.
